

Use of Video Replay at the 2013 State Hockey Tournament

Procedure

A Video Replay Official will be located in a secluded area of the building with an unobstructed view of the ice surface. Only NDHSAA-authorized officials may enter this secluded area.

Any review of a goal scored will take place prior to the next start of play.

The review of a potential goal will take place at the next stoppage of play. A shot on net — ruled by an on-ice official during play as a non-goal — that is reviewed at the next stoppage of play and is subsequently determined to be a goal will have the following effect on the game:

All penalties called between the time that the shot was taken on net and the next stoppage of play will be served. If a goal was scored at the other end of the ice between the time that the shot was taken on net and the next stoppage of play, it will be disallowed. Time will be put back on the scoreboard to reflect the exact time the goal was scored.

When a play is to be reviewed, the public address announcer will say: *"A play is under video review."*

During the period of video review, all replays of the goal or potential goal will not be shown in the building.

When the Video Replay Official makes a decision, an on-ice official will indicate the decision by pointing to the face-off spot.

General Information

Both the on-ice officials and the Video Replay Official will have the prerogative to decide to review goals or potential goals.

One of the following criteria must be met for video replay to be used:

- A puck crossing the goal line;
- A puck in the net before the goal frame is dislodged;
- A puck in the net before or after expiration of time at the end of a period or a whistle;
- A puck directed into the net by hand, skate or other illegal means;
- A puck deflected into the net by an official;
- A puck hit into the net by a high stick;
- To determine if a goal was scored as the direct result of a hand pass or high stick initiated or completed within the privileged area, or played by any other illegal means;
- To determine if an attacking player is illegally in the goal crease and prevented the goaltender from defending the goal when the puck entered the goal cage;
- To establish the correct time on the clock;
- To determine if a goal was scored as a result of a deflection off the netting above the goal.

The Video Replay Official must determine that the video reviewed is conclusive.

In the event that video cannot be used for review purposes, or if the Video Replay Official decides that the available video is inconclusive, the on-ice officials will make the final determination.
