Karen Arnold, Admin. Assistant

June 11, 2013

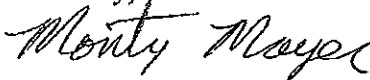

Dear NDHSAA Executive Committee:

I am writing this letter as rationale for the approval of an emergency soccer coop between Kidder County and Bismarck Public Schools. This coop will affect one young man and his family and I hope you will show them some empathy.

The Brian Crosby family recently purchased the grocery store in Steele and is in the process of relocating here. They are having a house built in Steele and plan to make the move this fall. Their son, Jacob, who will be a junior in high school, has played soccer in the Bismarck district for a number of years. The purchase of the store is a big deal to our community, and we want to do everything we can to make the transition smooth for them.

The coop was approved by the Kidder County School Board at the April 2013 meeting. The coop papers were then filled out and forwarded to Bismarck Public Schools. Due to the busy nature of the crazy spring season this year, the papers were inadvertently not filed by the June 1 deadline for fall sports. It is my hope that you will consider this coop due to the extraordinary nature of the events that led up to the creating of this coop. Please do not penalize the kid for the mistakes of adults. Thank you.

Sincerely,

Monty Mayer
Kidder County Athletic Director
