

## 2014 Track Coaches Advisory Meeting

1. Get rid of the 3 days/week regulation (schools can determine their own schedule)
2. Get rid of the jr high meets/week regulation?
3. Adjust how we enter track meets on the website? Problems with some schools entering meets they haven't been invited to.

### Class A

1. Scratches online
2. There should not be an A and B regional on the same site on the same date.
3. Move Regional to Friday, with Saturday being a backup date.
4. Top 8 qualify at Regionals instead of 6 (individual events, relay top 6). Adding 2 new teams in the next couple of years
5. Add language to break ties for State Qualifying to the thousandths

### Class B

1. B Provisional Standards
2. Point of Emphasis. Coaches supervise throwing areas better.
3. Rotating 4 X 800 Relay
4. Statewide competitor numbers
5. Switching positions. Switch long jump and triple jump days on the schedule to put the long jump and the high jump on the same day.

### Qualifying Standards

-A Boys High Jump, A Boys Discus, A Girls Triple

-Flight numbers for Throwing and Jumping

## Flights for Field Events at State Track

1. For competitions with participants of 10 or less, one flight.
2. For competitions of 11 to 18, two flights. With an even number of participants, two flights of equal numbers. With an odd number of participants, two flights with the second having one more competitor than the first.
3. For competitions of more than 18, make three flights with as equal a number of competitors as possible. When unable to have three equal flights, the last flight will have one more competitor than the other flights. This pattern would continue with having an extra competitor in the second to last flight, etc. Example: 23 competitors, flight 1 will have 7 competitors, flight 2 will have 8 competitors, flight 3 will have 8 competitors.
