

**NDHSAA Class B Baseball Coaches Meeting
Spring 2018**

- 1) Take a closer look at the pitch count rules for the Region tournaments. When some regions start their tourney on a Friday or Saturday and have rain, or an if necessary game the following Thursday, does the 135 max makes sense.
- 2) Look at starting the season at the same time, but week one is for pitchers and catchers and extend the season one week into June. Since arm care is becoming a higher and higher priority, after 9 daily practices most pitchers won't be ready for their first game. Another thing to look at is that many kids have finals during the region tournaments and this could that issue as well.
