

3-12-19 Swim Advisory Meeting

Discussion

1. Swim advisory requests the NDHSAA recommend that all lotions applied prior to competition be applied off deck. This is a courtesy issue for those you have issues with the smell.
2. Discussion was held on state meet location and fan seating. Advisory understands the seating issue but has no recommendations at this time. Dick Fisher will send email to coaches asking that they give any feedback regarding state meet seating to their athletic directors prior to the tournament committee meeting.

Regulations

One item to submit for regulation change

1. Allow a six dive qualifying standard.
 - a. A 6 dive score of 170 or higher will be considered a state qualifying standard as long as the diver has completed an eleven dive list at some point during the season.

Rationale – The number of qualifying meets is severely limited for divers. Swimmers have the opportunity to qualify at every meet and dual. Divers are not given the opportunity to qualify at duals due to the fact they usually are allotted only 6 dives at dual meets. Eleven dive dual meets are allowed but not utilized due to the time constraints.
