

CHIP TIMING-TAG INSTRUCTIONS

The disposable timing chip is attached to the back of your bib number and must stay there. To ensure you receive an accurate time, you must follow the directions listed below:

- Your bib number **must** be clearly visible on the **front** of the torso
- Do not cover your bib number with your hand or arm when crossing the Timing Mat
- Do not bend or twist the BibTag at any time
- Do not attach beside or under a metal zipper or have any electronics cord go over the bib number
- Always remember the Timing Mat must **'see'** your bib number when you cross all Chip Timing Lines
