White Shield High School

Re: HS Football Co-op dissolve

We the White Shield High School boys are currently in a co-op for the 2021-22 Football Season. Writing to request the White Shield School to be dissolved in the 9-man co-op with Parshall High School, and considered for the High School 6-Man Football season. We are currently having a new state of the art football facility being built next to the White Shield School. The completion date is set for November 2021. We also have our equipment needed for field, games & students. Our high school enrollment numbers are up considerably. The precious elementary football teams have won 3 of the 6 elementary Chairman's Bowls. Our Leagues consists of 7 teams from the MHA Nation and 1 team from Bismarck. School and community pride/support is extremely present and is visible. We have a considerable amount of new facilities, housing, and development in the White Shield Community. With that it brings in families with students, and gives opportunity to school to flourish in our own colors and logo. Please contact me if you should have any questions or comments. Your consideration for this matter is extremely important to our growing community as our new school.

Thank-you for your time,

Sheldon Rush
