

Soccer Advisory 6-18-21

Matt Pfau, Nick Christianson, Kevin Morast

Discussion

1. Adding one week to the current season (week to be added to the beginning of season)
 - a. Two new varsity teams in the West (Dickinson and Williston) – one new team coming in the East (Horace).
 - b. In order to complete regular season with new teams that would allow proper rest for athletes an additional week would be beneficial.
 - c. Adding a week would mirror the baseball/softball season calendar. If a week earlier does not affect baseball/softball practice indoors or outdoors the same consideration should be given to soccer.

2. Honoring anniversary teams at the state meet.
 - a. Add soccer to the list of sports that recognize anniversary teams.
 - b. If other team sports are honoring anniversary teams, soccer should be included. This would add some pomp and circumstance that would be beneficial to the sport of soccer.

Both items are requested to be considered by athletic review or the proper channels for approval.
